It was good, but not as good as others have played from Artifex Mundi. Had some problems with the way they do audio and had to remove some kernel sound modules because it was causing confusion for them. The game seemed a little shorter than the others. This is the first one of the series played so can't comment on them. It was more like playing a movie with a little interaction. Not as many HOG or puzzles as some of the other games from them have played. Also much easier to solve. First time never had to resort to youtube to solve one. Not bad, but not real good either.. I liked this one. Standard HOG but a middle eastern prince of persia vibe. I will say this. I did not find all the hidden dingers. Honestly I wasn't even sure there was one per scene cause I looked but did not find. Maybe use a guide if you want all the locations. Storyline was decent if a bit predictable. Voice acting didn't make me want to kill anyone either so theres a plus. Give it a whirl if you like this sort of game.. Awesome game i really like playing it, but there are lags if you go back and stuff and the game is freezing a bit if you go back on some stations, please fix.. I do like Artifex Mundi HOB games. But, this is a fairly weak entry in the franchise, with easy puzzles, and a lackluster story.. Persian Nights is beautiful but very simplistic. In terms of art, writing and voice acting, it's definitely one of the better HOGs that I have played. However, in terms of puzzles it is not challenging at all. In fact, there are only a few hidden object scenes and they are largely uninspired. Overall though, I would recommend the game, especially to newcomers to the genre.. Great and very typical hidden object game.. I enjoyed this game and was sad that it was so short. Only 3 hours for me. I liked the Arabian Nights theme with a mythical touch. I'm tired of horror, ghosts and asylum HOs! Graphics were good, music was lovely (full orchestra) and dialogue amusing. Puzzles were fairly easy and HO scenes were few and far between I completely forgot about the palace markings, so missed that achievement! I hope they make a sequel to this. 7.5 from me.. Good story, fun game play, nice puzzles.

Matryoshkans love potatoes the most, theres also one more thing close to our hearts. Its eggs. Easter eggs to be exact. Irony Curtain is set in the 50s, but we did our best to spice it up a little with pop culture references from modern movies, comics, games and classic point & clicks. Its kind of mandatory thing when creating the classic adventure game. Overall, we keep the balance between the story and the references, and there are places you will have a hard time finding them, but sometimes we literally go crazy with Easter eggs in some locations. Just look at the screenshot below and try to find all the references weve hidden there. Theres also a hint under spoiler below: ANSWERS: 1. key in the shape of Sauron's Eye 2. shape of the island from Monkey Island 3. sketch of a key game from Machinarium 4. crow from Enigmatis 2 5. Pirates of the Carribean key 6. Konami Code The medals are more monothematic because they are all inspired by the works of one studio.. Irony Curtain Premiere TODAY with 10% OFF! : Comrades! Were at the finishing line of accomplishing a dream weve had for a very long time publishing our own point and click adventure. Irony Curtain: From Matryoshka with Love is now live! Throughout the years of avid gaming, sleepless nights filled with solving puzzles and laughing at all the jokes we kept dreaming of bringing something to the table, enriching the genre somehow and now we put Irony Curtain in front of you to gauge how we did. We tried to give you a classical point and click with all the things we loved about the old-school games such as the Monkey Island series, but also do something based on the experiences that shaped us such as the reign of communism in Poland, which affected most of us in one way or another. We joked about Irony Curtain being Deponia meets Papers, please and we hope its true! Its a classic point and click adventure, with a story that will keep you hooked, with fleshed out, relatable characters, full of humour and well-placed easter-eggs, riddles that will keep you puzzled, with a familiar interface, known from other pnc titles all that without the elements that made us grit our teeth in the classics the riddles can be solved by rational thinking (no dream logic!), some of them even have more than one ways they can be solved, it has good music created by Peter McConnel and Arkadiusz Reikowski and will keep you entertained for up to 10 hours! So, were calling on all point-and-click fans we know youre out there! Play Irony Curtain, tell us how we did! We hope that we managed to bring you a wave of nostalgia, laughter and some insight into the absurdities of communism.
