Evening! You're on the Martell's private property now.

Great puzzle game for all ages. Viki Spotter is a quite random game series from "for Kids Games" of simple flash graphics "spot the difference". The screen is split into half horizontally or vertically. You have to find other colorized or removed objects and point them out in the upper screen. An infinite hint function helps you if you get into any trouble. Mostly you play like 24 levels. 1 Level complete means earn 1 achievement. The games are usually overpriced with 2 EUR for just half an hour gameplay. So just wait for all parts getting just 0.39 EUR. The soundtrack is quite nervewracking so just switch it off.

Viki Spotter: Around the world - Visit famous places around the world like mount Fuji or the Pyramids.. Please help! The game only makes it to the loading screen and then crashes.. The author could have charged people for the soundtrack, but I'm glad they are generous enough to release it for free on Steam. Personally I would have paid money for this if it wasn't the case.

As for the music itself you will come to recognise them if you played the game for any duration. There is nothing here that is truly noteworthy, but it is worth saying that the tracks did a good job of setting up the atmosphere, while not being intrusive enough to divert attention away from the game play.

I wish the tracks were at a higher bit rate, or better yet in FLAC format, but I find it hard to complain about free stuff.. Game is pretty good but has one huge issue - is already abandoned by devs. Few people are asking on forum about save file location and there is no feedback one week already.

So if you play on laptop and start playing on desktop - you start everything from zero. Save file is not in the cloud...

I can not recommend abandoned game, sorry.. Fun game, I've always liked Minesweeper.

I will say that I hate the mechanic where you can only play a character once after you unlock him. Then you have to unlock him randomly again.. Gameplay: 10

Encourage you to brave the danger with the grazing system. Various setting for beginners and experts alike

Graphic: 8

the shootemup part looks good, no complaint but the big portrait like those in omake folder looks weird, maybe the shoulders are too wide? the dot pixel portrait like during the boss fight and the full body dot pixel looks great though.

Music: 10

The soundtrack is a must get!

Sound Effect: 7

It's ok but nothing amazing

Note: the megane heroine is a trap!!!

i JUST GOT the shotgun and this game is a place i hope i never wake up in ,its like im in pyramidheads home that is in hellraisers dimension. i dig it ,ima keep playing. keep up the good work.ima have a nightmare fo sho lol. Hello everyone,

If you buy and want to play with the NA community, join the Discord:

So far the game is promising, the graphics are pretty good, and the towns are diverse and interesting. It has a crate system very similar to PUBG's (although a bit cheaper if you want to buy keys). Currently NA population is low, resulting in people just jumping into the China servers for an instant match. I'll update this review down the road as it gets closer to full release.

Update #1: I spent so much time queueing with people in NA trying to get a match, but I have never been able to play on the NA server. I spent so much time waiting in queue in the main menu that Steam refused to let me refund the game, and rejected my appeal.

I doubt this game will get off the ground in NA without a major sale or Free Weekend event.. Used to love these games as a kid. Doesn't get any easier though!. Quick and dirty multiplayer fun at a reasonable price.. Finally a PC Port. unless you want to have a hard time andi mean it a really hard time to find everything they placed where it shouldnt go on tho you will have a hard time finding a walkthrough thru the modified version wich is this one here also good luck trying to run the game it wont launch unless you find the exe and puti t in compatibility mode (unless its just me) anyway my score on this game is a lame 0 cus its a pain to play it oh also did i say watch out to not hit the collision they tend to throw you out of the map sometimes bad coding guys fix it and i will change tht zero have a nice day. Good horror VN.

Not sure if it worth the price, but I'm sure it's worth to be played. So, if this game on sale, or you have some spare money, I gladly recomend it.. **STRAIGHT UP THE GREATEST GAME EVER MADE. NOT JUST GREATEST RM GAME, I MEAN SIMPLY GREATEST GAME EVER IN ALL OF EXISTANCE: FUTURE AND PAST. THERE IS NO REASON NOT TO IMMEDIATELY PURCHASE AND PLAY THIS GAME. FEATURES INCLUDE: BEING AMAZING, BEING GOOD, BEING A GAME THAT EXISTS IN THE REAL WORLD. RIP FROGGY FRIEND. 🐸🐸🐸🐸 (JK, PROBABLY WOULD'VE EATEN YOU MYSELF ANYWAY.
